

Shalina Nair, MD, MBA is an Associate Professor-Clinical at The Ohio State University Wexner Medical Center. She is the Department of Family Medicine's Quality Lead as well as the Clinical Lead for the eConsults Program. The eConsults program is a Health system wide Telehealth initiative designed to improve access and quality of care. Dr. Nair is involved with disseminating education of telehealth processes to improve the eConsult process. As part of the Coronavirus pandemic response, she led the initiative to develop and disseminate best practices for providing telehealth (video, electronic, phone) to patients and ensuring both their

and providers safety. On July 1, 2020, she will begin an initial 2 year term as the Vice Chair of Quality and Innovation. She is a member of the Ambulatory Improvement Management System team and the Ambulatory Medical Emergency Response workgroup, both of which work to improve quality and safety processes in the primary care network. She is also an Applied Health Systems Science Quality Coach and a Portfolio Coach for medical students. She received her MBA and completed her Six-Sigma Greenbelt through Fisher College of Business and has led and implemented many successful quality initiatives for the department such as tobacco cessation, colorectal cancer screening, and improving the anticoagulation process. Her interests include preventive health, chronic disease management and quality improvement throughout the healthcare system.
