

Ohio Network of Certified Pathways Community HUBs

Providing care coordination for Ohio's most at-risk individuals to improve health and quality of life

Community Health Workers in Ohio:

Tend to be living in or have lived in the communities that they serve, are deeply passionate about helping their clients improve their health, well-being, and self-sufficiency

Serve as trusted messengers of evidence-based, important information to their communities

Often have their own lived experience that allows them to build trust and share perspective with the people they are helping

Certified Pathways Community HUBs in Ohio:

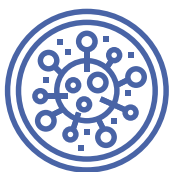

There are about 200 CHWs serving HUB clients in Ohio

Member HUBs are partnered with over 65 community agencies that employ CHWs

Member HUB CHWs served 4,036 clients in 2020 at the height of the COVID-19 pandemic

COVID-19 Response

The Ohio Network of Certified Pathways Community HUBs work to improve the health outcomes of our communities. During the COVID-19 pandemic we have each responded in our communities by steadfastly providing service to our clients.

On average, member HUBs provided 2,397 educations related to COVID-19 for their clients in 2020 including:

Personal Hygiene

Mask Wearing & Physical Distancing

Locating a Testing Site

Vaccine Education

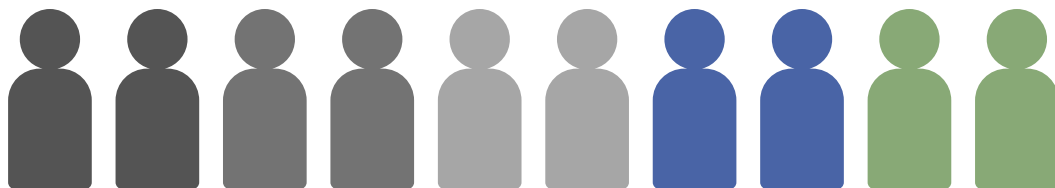

Ohio Network of Certified Pathways Community HUBs

Care coordination for Ohio's most at-risk individuals

While the conversation about **social determinants of health** may be a new conversation for some, it is the **core of the Pathways HUB model**.

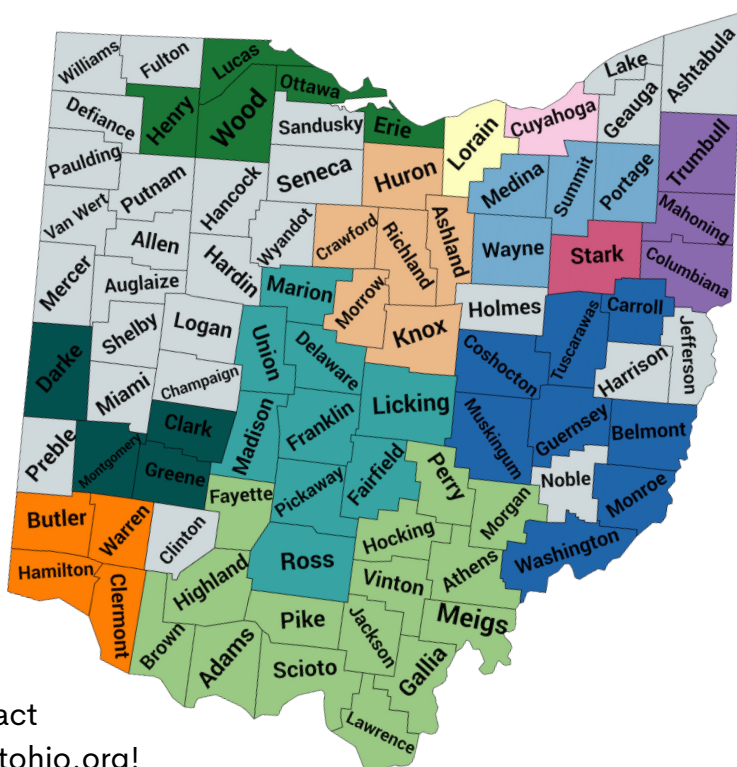

The Pathways HUB model allows for a plan to be **tailored** to fit the needs of **each individual** across age, race, culture, geographic location and gender. Member HUBs engage **community based organizations** to provide appropriate engagement for each client.

20 Core Pathways Available to Pathways HUB Clients
